

EE447 PRELIMINARY WORK #1

Simulation:

1)

I build, run, and understand Practice Lab.s.

Figure 1. Operations such as running, debugging, and showing memory map for 1st question

I build, run and understand Program Directives.s. I add OutStr.s to your project folder.

3)

I make the following modifications on Program Directives.s. This time I create and copy a different table.

0x2000.0480	0x01
0x2000.0481	0x01
0x2000.0482	0x02
0x2000.0483	0x02
0x2000.0484	0x03
0x2000.0485	0x03
0x2000.0486	0x04
0x2000.0486	0x04
...	...

A.

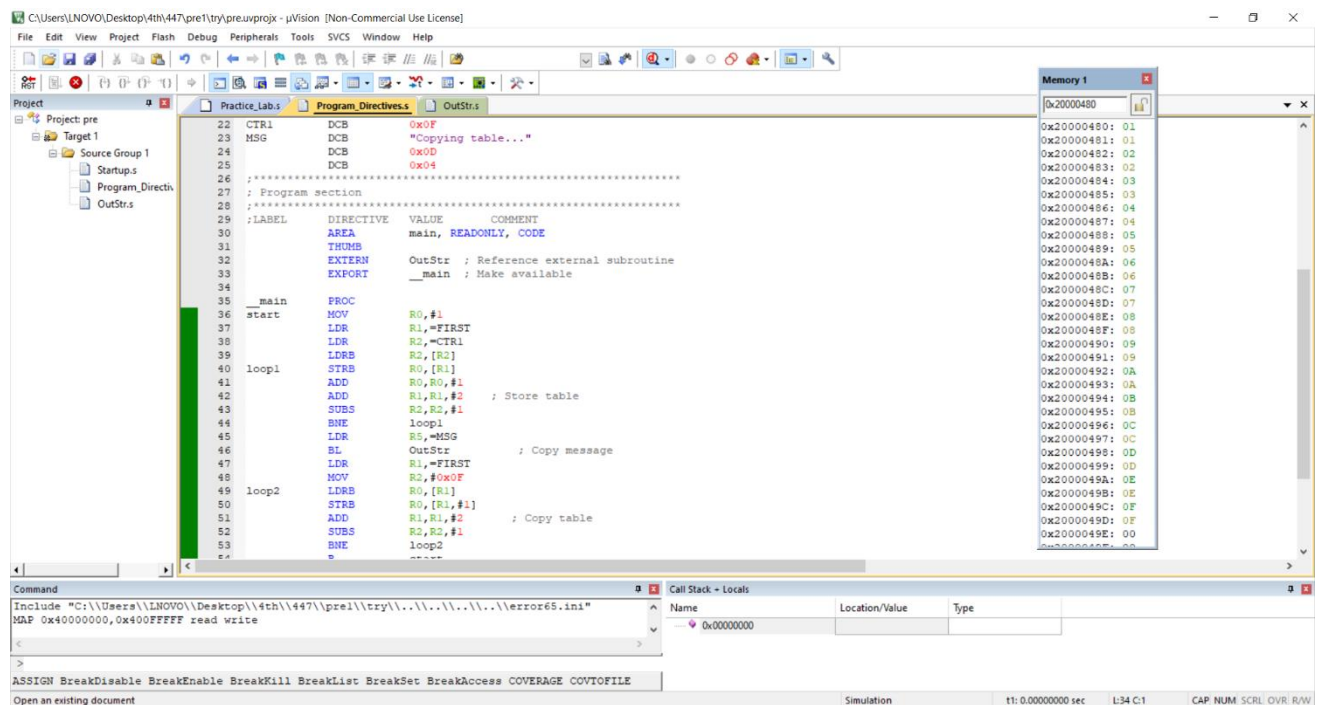

Figure 3. Operations such as running, debugging, and showing memory map for 3rd question part A

[illegible]
